

# Oily massage cream mild heat

## OXD Professional care

### > Product description

Ideal for professional massage, especially for those that require a heat effect. Facilitates the sliding of the hands, suitable for all techniques of massage. Ideal for all types of skins.

### > Product characteristics

- Can be combined with any of the OXD essential oils to customize it for the desired therapy or aroma.
- Product formulation includes a high content in mineral oils, which act as emollients to improve the cream touch and extension over the skin, making massage easier. Product formulation melts and becomes oil during massage. Easy sliding and absorption.
- Contain thermo-active agents, such as Camphor, which provide a mild heat effect.
- It is highly moisturizing formula which cares for patient's skin and masseur's hands. Minimizes the risk of allergies on the professional hands.
- Silicone free.

### > Technical specifications

#### > Composition (INCI)
